

# Everyone

needs a Lasting Power of Attorney (LPA)

Many people think a Lasting Power of Attorney (LPA) is only for elderly people.

We at Enoch Evans believe that this is not the case and **everyone** should have a LPA.

**How would your loved ones manage if you:**

- Were in an accident?
- Couldn't manage your own financial affairs for another reason?
- Couldn't make decisions about your own health and welfare?

We recommend everyone over 18 should complete an LPA while they have mental capacity, to cover unforeseen situations should they arise, which prevent you from looking after your own affairs.

There are two types of LPA: Financial Decisions and Health & Welfare, which if prepared allow you to:

**Financial Decisions** Appoint someone you trust to manage your property and finances if you become unable to. This includes:

- managing your bank accounts and investments selling property managing
- business interests liaising with official organisations on your behalf, such
- as Department for Work and Pensions/HM Revenue and Customs.
- 

**Health & Welfare** Appoint someone you trust to make health and care decisions for you if you can't, including:

- where you live your day to day care access to
- your information authority on life sustaining
- treatment decisions
-

The members of the Enoch Evans Wills, Tax & Probate Department have the professional skill and expertise required to assist you in preparing your Lasting Powers of Attorney, and are here to help. Please contact us to see how we can help you.
